ایانا، کارتا، لوئیزا و لنا

یک شب ماه مثل همیشه خواب روز
را دید.

او بقیه ی شب را تا سپیده ی سحر
فکر کرد و فکر کرد تا اینکه طلوع
خورشید را دید.

او دلباخته ی روز شد و تصمیم
گرفت تا از خورشید خواهشی بکند.

- سلام ای ماه! انکار چیزی در دلت

هست. اگر هست بگو!

- از تو خواهشی دارم!

- چه خواهشی؟

- دلم می خواهد که یک بار در روز

بتابم!

- عجب! من چگونه می توانم به تو

کمک کنم ای ماه؟

- می خواستم بپرسم میشه که ما
جامون رو با هم عوض کنیم؟ تو شب
بتابی من روز؟

- این آرزوی زیبایی است. من به تو
کمک خواهم کرد تا به آن برسی.

و اینگونه بود که خورشید و ماه
تصمیم گرفتند تا برای یک شب و یک
روز جایشان را با هم عوض کنند.

و بالاخره یک روزی آمد که در آن بر
خلاف همیشه به جای خورشید، ماه
در آسمان می تابید. او از روز بلندی
که داشت خوشحال بود اما نورش
آنقدر نبود که بتواند تمام جهان را
روشن کند.

او با ناامیدی از خورشید کمک
خواست و آن دو با هم دنباله ی روز
تأییدند.

در انتهای روز ماه از خورشید تشکر
کرد و آنها تصمیم گرفتند تا دوباره سر
جای اولشان برگردند. حالا دوباره
خورشید در روز می درخشید و ماه
هم شب را روشن می کرد.

اما هنوز روزهایی هست که ماه خود
را تا روز می کشاند تا با خورشید
دوتایی به جهان بتابند.

the 1990s, the number of people in the UK who are employed in the public sector has increased from 10.5 million to 12.5 million, and the number of people in the public sector who are employed in health care has increased from 2.5 million to 3.5 million (Department of Health 2000).

There are a number of reasons for this increase. One of the main reasons is the increasing demand for health care services. The population of the UK is increasing, and the number of people who are aged 65 and over is increasing rapidly. This has led to an increase in the number of people who are in need of health care services, and this has led to an increase in the number of people who are employed in health care.

Another reason for the increase in the number of people employed in health care is the increasing demand for health care services. The population of the UK is increasing, and the number of people who are aged 65 and over is increasing rapidly. This has led to an increase in the number of people who are in need of health care services, and this has led to an increase in the number of people who are employed in health care.

A third reason for the increase in the number of people employed in health care is the increasing demand for health care services. The population of the UK is increasing, and the number of people who are aged 65 and over is increasing rapidly. This has led to an increase in the number of people who are in need of health care services, and this has led to an increase in the number of people who are employed in health care.

A fourth reason for the increase in the number of people employed in health care is the increasing demand for health care services. The population of the UK is increasing, and the number of people who are aged 65 and over is increasing rapidly. This has led to an increase in the number of people who are in need of health care services, and this has led to an increase in the number of people who are employed in health care.

A fifth reason for the increase in the number of people employed in health care is the increasing demand for health care services. The population of the UK is increasing, and the number of people who are aged 65 and over is increasing rapidly. This has led to an increase in the number of people who are in need of health care services, and this has led to an increase in the number of people who are employed in health care.

A sixth reason for the increase in the number of people employed in health care is the increasing demand for health care services. The population of the UK is increasing, and the number of people who are aged 65 and over is increasing rapidly. This has led to an increase in the number of people who are in need of health care services, and this has led to an increase in the number of people who are employed in health care.

A seventh reason for the increase in the number of people employed in health care is the increasing demand for health care services. The population of the UK is increasing, and the number of people who are aged 65 and over is increasing rapidly. This has led to an increase in the number of people who are in need of health care services, and this has led to an increase in the number of people who are employed in health care.
